In addition to being a visitor reception building, Azur is also a conference centre, hosting on its ground floor an auditorium, two amphitheatres, a vast reception area, a business centre and the concierge services. On its first floor, the Azur building houses meeting and training rooms.

Also located in the open area, this building is dedicated to food services (company canteen and brewery).

Located in the access restricted area, the Emeraude building houses the experimental and testing facilities. It also houses laboratories, offices, archives and technical rooms.
